

GRAYLING RESIDENTS

# DESIGN THE FUTURE OF GRAYLING

**In partnership with the Michigan State Housing Development Authority (MSHDA) and McKenna, the City of Grayling seeks to update their Master Plan.**

The 2050 Master Plan will provide a comprehensive framework that guides the community's sustainable development, infrastructure and land use (with a special focus on housing) goals.

The city seeks to hear from you. Participate in the online survey, interactive map, interactive Vision Board, and attend the August 21st 5:30 PM community open house. Provide feedback and ideas on:

- » Housing and Neighborhoods
- » Transportation and Mobility
- » Natural Systems and Resiliency
- » Economic Development and Business Support

**Online Survey, Interactive Map, and Vision Board Timeline: Mid-July to Mid-September.**

(Scan the QR Code. Paper copies available at City Hall)

The results of this survey will fuel the Master Plan. Results will identify goals and objectives for the city, priority redevelopment sites, areas to improve, and areas to preserve. A final draft will be ready for you to review and provide feedback March to May 2025.

**Community Open House:  
Wednesday, August 21, 2024  
5:30 PM  
Grayling City Hall**
